PERSONAL PROJECTS

Grim – Chomper Studios May 2023 – Present

Technologies used: Unity, C#

"Grim" is a single-player 2.5D action-adventure game that immerses players in a captivating journey. The game features a side-scrolling platformer format, offering players the ability to move the character using directional keys. In addition to movement and attacking. Furthermore, the game introduces a spell-casting system, allowing the character to access and cast various spells to aid in combat and overcome obstacles. As players progress, they'll encounter both monsters that need to be defeated and challenging bosses to confront, as well as mind-bending puzzles and intricate obstacles, designed to challenge their wits and platforming skills, creating a diverse and engaging gameplay experience.

WORK EXPERIENCE
